

We are the first in
Australia to have **Home
Compostability** on **Triple
Wall aqueous cups!**

NEW

Aqueous Cups

Aqueous Cups

Introducing Huhtamaki TP's line of Aqueous cups, the sustainable cup solution that is fully compostable. Huhtamaki TP's aqueous cups range represents an eco leap forward in sustainable packaging for beverages.

About Aqueous Coating

Say hello to a greener future with Huhtamaki TP's new line of Aqueous cups.

Made from aqueous coating, our cups are certified home and commercially compostable, offering a greener alternative to traditional plastic-lined cups.

Aqueous coating is a water based solution that is applied to our cups. It protects against moisture and minimises your environmental footprint.

Available in various sizes and colours. Contact us now for further information.

What does Home Compostable mean?

The product can be placed in a home compost bin where it will decompose naturally within a period of time. Every component and material used in the packaging will break down and decompose into the soil.

What does Industrially (or Commercially) Compostable mean?

The product can be composted in a industrial composting facility. An industrial compost facility is a place where the perfect balance of heat, moisture, and oxygen is created to break down organic and plant-based materials.
