What does Home & Industrial compostable mean?

Home Compostable:

These products can be placed in a home compost bin where they will decompose naturally within a period of time. Every component and material used in the packaging will break down and decompose into the soil.

Home Compostable

AS 5810
ABAP 20107

Industrially (or Commercially) Compostable:

These products can be composted in a industrial composting facility. An industrial compost facility is a place where the perfect balance of heat, moisture, and oxygen is created to break down organic and plant-based materials.

Future Friendly

by **Huhtamaki**

Love the food packaging that loves your planet.

Our Future Friendly Range allows you to package your delicious food and drinks in a sustainable way, helping you build your brand responsibly. Our packaging is designed with the environment in mind, using materials such as bamboo, sugarcane, and paper, which are renewable and biodegradable. This helps reduce your carbon footprint. With over 150 different packaging options, you can find the perfect fit for any type of food or beverage, catering to a wide range of needs.

Support your brand with the right packaging, sustainability can elevate your brand by opting for packaging that prioritizes the planet.

Visit our website to learn more about our **Future Friendly** range.

Our Food Produce Roll Bags are the sustainable choice to safely carry and store your food.
