Kraft Board Trays

Available in a wide range of sizes and shapes, these trays use corrugated kraft board, so they're strong and durable. These trays are fully recyclable and compostable to Australian Standard (AS4736) in industrial facilities where these exist and home compostable and certified to Australian Standard (AS5810).

Features and Benefits

- Made from corrugated kraft board that's strong, durable and suitable for hot, savoury, sweet or greasy food
- Compostable to Australian Standard (AS4736) in industrial facilities where these exist and home compostable and certified to Australian Standard (AS5810).
- Fully Recyclable
- Made from sustainable sources
